Community Health Representative

The Program is aimed at taking a proactive role in planning, developing and implementing health promotion and health education activities. This is accomplished through clinics, workshops and activities which ensure aboriginal cultural values are maintained. The main role is to motivate community members to participate in health programs and to assume active responsibility for improving and maintaining optimum level of health and contribute to improved community health conditions.

Community Health Rep.

-provides health advocacy, referral and development services that benefits Beau-soleil First Nation members.

-takes role in developing and implementing new health programs and initiatives.- provides assistance with programs.

-assist in the provision of health services to clients and their families.
